ABOUT PENANG BUILDEX 2024

Penang Buildex 2024, with its theme "The Building Industry's Showcase" was initiated since 2001. Once again, Penang Chinese Chamber of Commerce (PCCC) and Penang Master Builders (PMB) are jointly organizing the Penang Buildex 2024 from 18th – 20th June 2024 at Setia SPICE Arena Penang.

Penang Buildex 2024 is a construction and building exhibition. It serves as a platform for professionals, industry experts, and businesses in the construction sector to showcase their products, services, and innovations. The event aims to promote the latest trends and advancements in the construction industry, networking opportunities, and knowledge sharing among participants.

Penang Buildex 2024 typically features a wide range of exhibitors, including construction equipment manufacturers, building material suppliers, architectural firms, interior designers, property developers, and contractors. The exhibition floor showcases an extensive array of products and services, such as construction machineries, building materials, electrical and plumbing systems, green building technologies, and smart home solutions. In addition to the exhibition, Penang Buildex 2024 includes various programs & seminars conducted by industry experts.

The vision is to be a leading construction and building exhibition that drives innovation, promotes sustainable practices, and fosters collaboration within the industry. The event aims to be a catalyst for positive change and advancement in the construction sector, both in Penang and beyond.

Penang Buildex 2024 welcome a diverse range of participants, including professionals from various disciplines within the construction and building sector, business representatives seeking networking opportunities, government officials involved in regulations, academics, and students eager to learn about industry trends, sustainability advocates, investors, service providers, media, and anyone with an interest in the field. The event aims to cater to all these stakeholders, providing a platform for learning, networking, collaboration, and innovation in the construction industry.

WARM GREETINGS

YAB TUAN CHOW KON YEOW

CHIEF MINISTER OF PENANG

On behalf of the state of Penang, it gives me great pleasure to welcome all participants to Penang Buildex 2024. This event stands as a beacon for innovation, showcasing the best and brightest in the building industry.

As we gather at the Setia SPICE Arena, we are reminded of the power of collaboration and the potential for progress and success when we convene to share knowledge and drive innovation.

Penang Buildex 2024 is more than an exhibition; it is a platform that offers change and a glimpse into the future of construction and building technologies. As such, objectives of the event are of a myriad which includes an avenue for learning, networking, collaboration and innovation in the construction industry.

With sustainability at the forefront, we are poised to explore new frontiers, challenge conventional norms, and embrace practices that ensure a greener, more sustainable future. Hence, this event is parallel with our aim of becoming a greener and smart city by 2030.

To all attendees, from industry veterans to the brightest young minds entering the field, your presence here is invaluable as it not only represents an opportunity for future cooperation and collaboration but as catalysts for accelerating our efforts in realizing the Penang 2030 vision.

Together, we are not just participants but active contributors to the evolving landscape of the building industry and this nation's trajectory.

May your experience at Penang Buildex 2024 be both enriching and transformative, paving the way for a brighter, more sustainable future. Let us seize this opportunity to inspire, aspire, learn and lead.

Sincerely,
YAB Tuan Chow Kon Yeow
Chief Minister of Penang

WARM GREETINGS

**YB TUAN STEVEN SIM
CHEE KEONG**

MINISTER OF HUMAN RESOURCES
MALAYSIA

As the Minister of Human Resources, it is my pleasure to welcome you to an event that stands at the intersection of innovation and human potential. Penang Buildex 2024 serves as a remarkable platform for showcasing the latest trends, technologies, and practices in the construction and building industry.

However, at its core, this event celebrates something even more fundamental—the talent, dedication, and resilience of the people who make all progress possible.

In a world where change is the only constant, the role of human resources in shaping the future of our industries cannot be overstated. It is through our collective efforts in developing skills, fostering talent, and promoting a culture of continuous learning that we can ensure the sustained growth and competitiveness of our construction and building sector.

As we gather here, let us embrace the opportunities for collaboration, learning, and innovation that Penang Buildex 2024 offers. Together, we are not just building structures; we are building futures, empowering lives, and laying the foundation for a world that values every individual's contribution to progress.

May your participation in this event inspire new insights, foster meaningful connections, and contribute to your professional and personal growth. Here's to building a brighter, more inclusive future for our industry and our world.

Best wishes,
YB Tuan Steven Sim Chee Keong
Minister of Human Resources Malaysia

WELCOME

DATO' SERI HONG YEAM WAH

PRESIDENT
PENANG CHINESE
CHAMBER OF COMMERCE

由槟州建筑暨材料商公会与本会共同主办的2024槟州建博会（Penang Buildex 2024）于6月18日至20日在槟城国际体育馆隆重举行，本次活动主题为“建筑行业展览盛会”。

槟州建博会自2001年首办，第二届于2004年举行，最后一次举办是在2006年。因种种因素，建博会停办了很多年。如今，随着建筑项目的增多，建筑材料供应商强烈要求本会再次主办建博会，为建筑领域的相关业者提供展示产品、服务和创新的平台。

前三届建博会获得了高度评价，历时三天，吸引了众多企业和商户参与，规模庞大，影响深远。本次建博会的重新举办，将为州内建材生产和供应商搭建一个展示和交易的平台，也为房地产行业提供选择建筑装饰材料的机会，同时为参与者带来更多的知识分享和交流机会，促进建筑业最新趋势的发展。建博会不仅展示了先进的建筑技术和材料，还为各方搭建了合作交流的平台。我们相信，通过这次博览会，大家可以深入了解行业动态，拓展商业机会，推动建筑行业的创新与发展。

我们衷心希望每一位参展商和与会者都能在此次博览会中有所收获，与同行们共同探讨行业前沿话题，分享成功经验，碰撞出智慧的火花，共同迎接建筑行业的美好未来。

我深信，在槟州政府、各政府部门和行业协会的大力支持下，通过筹备委员会的努力，2024年槟州建筑材料及劳动力就业的推进必将取得辉煌成就。我们对槟州政府高度重视和支持私人建筑行业的行动深表感激，同时呼吁政府实行一些政策，让本地承包商获得机会参与州内的各项工程项目。

最后，我谨以至诚，祝愿2024年槟州建筑材料及配备工作顺利开展，博览会圆满成功，取得卓越成就。感谢各界人士在工作繁忙之际给予的支持与指导。愿大家在本次博览会期间，收获满满，不虚此行。

拿督斯里方炎华
槟州中华总商会会长

WELCOME

DATO' GOH TENG WHOO

**PRESIDENT
PENANG MASTER BUILDERS**

Dear Esteemed Participants,

Welcome to the Penang Buildex 2024 Exhibition, an event that marks yet another milestone in our journey towards excellence in the construction and building industry. As the President of Penang Master Builders, I am immensely proud to co-host this prestigious event in collaboration with the Penang Chinese Chamber of Commerce.

As we gather this year, we stand united in our commitment to not only meet the current demands of our sector but also to anticipate and shape the future. Our collective presence underscores a shared vision—to drive forward-thinking solutions that ensure our industry remains at the forefront of technological and environmental advancements.

This exhibition is not just a showcase of what we have achieved; it is a platform to set our targets higher and expand our horizons. Through our collaboration, we aim to enhance our capabilities, adopt groundbreaking technologies, and implement best practices that set new standards of excellence.

Our vision for this exhibition is clear—to foster an environment of learning, networking, and growth. Each exhibit, presentation, and panel discussion has been curated to inspire and challenge conventional perspectives, encouraging all participants to think beyond the boundaries of today's possibilities.

As you engage with peers, explore innovative products, and absorb the wealth of knowledge presented, I encourage you to embrace the opportunities that lie ahead. Together, we can transform challenges into opportunities and visions into realities.

Thank you for your participation in this pivotal event. Let us make the most of this gathering and continue to build a robust foundation for a sustainable and prosperous future in construction.

Warm regards,
Dato' Goh Teng Whoo
President, Penang Master Builders

MESSAGE

DATO' LIM CHEE TONG

ORGANISING CHAIRMAN
PENANG BUILDEX 2024

I am deeply honoured to be entrusted by both the Penang Chinese Chamber of Commerce and Penang Master Builders with the role of Organising Chairman for Penang Buildex 2024.

The construction industry is evolving rapidly, with new materials, Penang technologies, and methods continually emerging. In response to these changes, we have meticulously planned Buildex 2024. This exhibition serves as a unique platform, providing builders, consultants, industrial players and the stakeholders with the opportunity to fully understand and appreciate the latest innovations and advancements in construction technology.

I feel deeply honoured that all exhibitors from various industry companies and different regions have participated in this exhibition. Green and sustainable development, which aligns with ESG Concepts, is much needed among industrial players to continue learning the latest technological advancements from other regions.

We sincerely thank all exhibitors and participants for securing exhibition booths, advertising spaces, and gala dinner seats. We also extend our appreciation to the endorsing and supporting bodies for their invaluable support of this event.

Finally, my heartfelt gratitude goes to my dynamic committee and the secretariat for their hard work in making this event a success. Penang Buildex 2024 is more than just an exhibition; it is a beacon of progress and innovation in the building industry. Let us seize this opportunity to learn, share, and pave the way towards a more sustainable and prosperous future.

Thank you and look forward to a successful and inspiring exhibition.

Your Sincerely,
Dato' Lim Chee Tong
Organising Chairman, Penang Buildex 2024

COMPANY INTRODUCTION

Founded in 1953, China Electronics System Engineering No. 2 Construction Co., Ltd. (hereinafter referred to as "CESE2"), is affiliated with China Electronics Corporation (CEC), a Fortune Global 500 company. It is one of the earliest large-scale central enterprises engaged in clean engineering and industrial construction in China. With advanced construction technology and product services, the company continues to promote the progress of the industrial environment industry and is committed to becoming a global leading industrial environment service provider.

CESE2 specializes in serving the semiconductor, data center, new energy, and pharmaceutical industries, providing customers in the high-tech manufacturing industry with full-lifecycle engineering solutions, including consulting, engineering design, engineering construction, special systems, quality inspection services, intelligent operation and maintenance, and core products. After over 70 years of high-quality development, the company has multiple industry-leading construction technologies and has won the China Construction Engineering Luban Prize seven times and the National Quality Engineering Award 15 times. It has been rated as an AAA credit rating and a high-tech enterprise by national professional rating agencies for consecutive years.

CESE2 has continuously increased its efforts to expand overseas markets, successively establishing an overseas business department, setting up subsidiaries in Thailand and Vietnam, a branch in Malaysia, and a subsidiary in Singapore that is under construction, to further advance the company's overseas strategic map. In the past three years, it has cumulatively undertaken nearly 100 overseas projects for companies such as Gold Circuit Electronics, ASKPCB Innolight and JA Solar with a compound annual growth rate of over 140%, making it an industrial environment service provider with international competitiveness.

CESE2 will continue to adhere to the core values of "sincerity, Responsibility, Innovation and Perseverance", uphold the brand philosophy of "Be on with the Field, Strive for Real Construction, continuously innovate technology and services and create higher value for customers."

Projects served 6000+	Employees 10000+	National and provincial awards 270+	Coverage of leading clients in various industries 80%	National standards participated for formulation 70+	National technology patents 340+

IMPROVE PEOPLE AND MATERIAL FLOW EFFICIENCY BY 50%!

Jump ahead of schedule with KONE JumpLift

Whether you're looking to speed up construction schedules, avoid redundant work, or improve logistics, KONE JumpLift gives you a genuine advantage over traditional means of hoisting

Faster construction.

Because it uses the permanent elevator hoistway, KONE JumpLift brings advantages in terms of both vertical transportation speed and load capacity.

Lower overall cost.

Workers can spend more time working, instead of waiting for materials to arrive. You can make significant savings in daily labor costs.

All-weather operation.

All transportation with KONE JumpLift takes place in the permanent elevator shaft inside the building, which means construction can proceed unhindered, regardless of external weather conditions.

Improved safety.

KONE JumpLift is compliant with all local regulations and elevator codes. It fitted with automated doors, meaning it is as safe as any standard elevator. Furthermore, unlike external hoists, there is no risk of it becoming detached from the building, which can result in significant property damage and personal injury.

Get in touch with us now. Our team of experts are ready to provide tailored solutions that can provide you with the best People Flow.
